In The Legislature

After a debate lasting all Thursday afternoon the legislature passed by a vote of 42 to 11, an amendment to the Moore-Love resolution regarding adverse votes on government measures, which provides that the government of the day need not be bound to accept defeat of any government measure or resolution as occasion for resignation, save when followed by a vote of want of confidence. Two members of the opposition, Mrs. McClung and S. G. Tobin, of Leduc, as well as the independent members, voted with the members on the government side. Premier (Greenfield) Hon. Mr. Brownlee and Hon. Mr. Hoadley did not vote.

Premier Greenfield, along with the premiers of Manitoba and Saskatchewan, has received a definite offer from Premier M. Kenzie King with respect to the transference of natural resources from control of the dominion government to the three provincial governments mentioned.

In brief, the offer of Premier King is that the governments of the three prairie provinces relinquish the subsidies now being received in lieu of the lands of the provinces in control of the dominion, and in return receive these lands and natural resources. In this way all transactions of the past would be ignored. Premier King states, however, that should the provinces wish an accounting of past transactions, he would not object to such an accounting by an independent tribunal. Premier Greenfield has not yet intimated what the Alberta government's attitude toward the offer will be. He promises to keep the legislature fully informed as to the progress of negotiations.

Public accounts for the past year tabled by Premier Greenfield in the house, show a deficit on operation of \$2,115,309.66, the total expenditure from general revenue account having been \$10,995,153.91 while the total revenue received was \$8,879,844.25. There is \$5,000,000 in outstanding accounts which will be collected from various sources.

New bills introduced during the past week include one to amend the mines act, by Mr. Ross, acts respecting advances for seed, feed and other relief and provisions for securities for such, introduced by Mr. Hoadley, also acts to provide for the inspection of stock, to amend the game act, by Mr. Hoadley, to provide for the consolidation of the provincial stations, by Mr. Brownlee, to amend the Lethbridge charter, by Mr. Stewart, of Lethbridge. A private bill, introduced by Mr. Claypool, of Didsbury, to give authority to Richard Vandersly to practice dentistry, was voted out by the house.

The seed grain act provides for advances for seed grain to farmers in the south, with provision for security by promissory note, land mortgage, or chattel mortgage.

BAD MONTREAL FIRE

Montreal, March 4.—A total loss of at least \$10,000,000 is Mayor Martin's estimate of the loss resulting from the fire at the city hall without counting the incalculable loss of historic documents, works of art and records of a moral and sentimental, rather than a financial value.

In this total, his worship includes not only the value of the building destroyed and its contents (not a dollar's worth of which is insured, his worship believes), but also the cost of replacing and recompiling lists of assessments, taxation lists, etc., the furnishing of temporary accommodation and all other expense inflicted upon the city by the loss of the city hall.

The disorganization of the city's finances, said Mayor Martin, was bound to be inevitable. He thought that the government would facilitate the city's recovery from disaster by authorizing a special loan of two and a half or three million dollars.

Advances under this act are not to total more than \$100 for any quarter section. The relief act provides for advances for relief purposes, security for which may be taken by chattel or land mortgage.

Acts passed through committee for third reading, or finally passed, include the minimum wage bill for women, introduced by Mrs. Farby, the drainage and irrigation districts act amendments, the amendments to the brand act, the act to provide for adjustment of inequalities in assessment, which provides for the equalization assessment board, which operated under the supplementary revenue act.

On Tuesday afternoon the house passed a resolution of congratulation to Princess Mary on the occasion of her marriage to Viscount Lascelles. The resolution was moved by Premier Greenfield and seconded by J. R. Boyle.

Requiving Tuesday to a question put by R. C. Edwards, Calgary, the premier made a reform stating that it did not interpret section ten of the U.F.A. political platform as requiring it to institute a referendum on the subject of control of liquor sales.

The ultimate goal of the people of Alberta should be municipally owned hospitals everywhere supported by taxation, where patients may receive bed, board, cost of operating room and X-ray for the nominal fee of \$1.00 per day, was the statement of A. K. Wainston, organizer of hospitals for the provincial government in an address delivered last week in Calgary.

NOTICE TO SCHOOL BOARDS

The attention of the trustees of rural school districts is invited to the fact that lands held by the C.P.R. Company become taxable after twenty years have elapsed from the date on which titles were issued. Some of these become taxable in 1922. I would suggest to the secretary-treasurer of any district having C.P.R. land therein to obtain from the Land Titles Office at Edmonton an abstract of title in respect to each particular parcel of such land. This abstract will show the date on which each title was issued, and if in any case the twenty year period has elapsed then such parcel of land may legally be assessed. In accordance with section 10, sub-section 2, of the School Assessment Ordinance, any addition to the assessment roll may be made within two months after the roll is posted. As this matter involves first insurance, school officials should give it their immediate attention.

This notice is not intended to apply to any school district or part thereof, that is included within the limits of a collecting municipal district, that is a municipal district that levies and collects all the school taxes.

M. O. NELSON,
Inspector of Schools.

Red Cross Notes

The provincial headquarters of the Red Cross has received an urgent appeal for girls' shoes, sizes 9 and 2, underwear for girls aged 7 and 11 years, and sweaters, stock, and materials for school dresses for the same children. They are also asking for men's shirts and overalls.

Many districts have appealed to the Red Cross to help out in supporting the lunches the children bring with them to school.

A recent meeting of the ratepayers of Foreman passed a resolution thanking the Red Cross for opening the hospital in that district, not pledging their support.

Red Cross headquarters for the province, O'Sullivan, Block, Calgary, has received the following contributions for the clothing relief fund:

Donor	Amount
Presbyterian acknowledged	\$10,000.00
Rocky Mts. U.F.A.	2.00
Fairfield Baptist Church	15.00
High River Red Cross	100.00
Crossfield Red Cross	10.00
Alex. W. J. and G. W. V. A. Aux.	25.00
St. Mary's	2.00
G. H. Hensel	2.00
Stony Plain	2.00
Chapman W. L.	10.00
Andrie W. L.	25.00
Fort Saskatchewan Red Cross	10.00
Mary Ewing Penhold	10.00
Total	\$10,000.00

OTTINGB
OF
TOWN AND
VILLAGE

Local News.

Arch M. Matheson, M.L.A. was in town over the weekend, and called upon many old friends

Mrs Fritz Bachor left for Wisconsin on Sunday, having received a cheerful call on account of the serious illness of her father.

Mr and Mrs Chas. Bishop, of Hondo Glen, returned from a trip to Maine on Saturday, where they had been visiting at the old home

Mr and Mrs Geo. E. Clarke and Mrs A. A. Graham were Calgary visitors for a day or two during the week.

Geo. E. Bowker has received the contract for two silos, to be erected in connection with the new barns at the hospital.

Mrs A. M. Cook and son, Ed. L., have returned from Oregon, where they have resided for some considerable time, and are again making their home in Uxona.

John R. Jones returned from his trip to Wales on Saturday. He had a fine holiday among friends at the old home, but had a very rough trip on the return journey.

In the recent issue of the Alberta Gazette O. W. Segariston is appointed commissioner for calling and A. M. Farum, sheriff's bailiff

Wednesday, March 1st, was hog day and with prices at \$13.20 there were large shipments. Most of our farmers are getting into the hog business again rather extensively.

Very fair prices ruled at J. V. James' sale on Monday. Cows brought as high as \$75, and implements were in demand.

The skating carnival and dance, held under the auspices of the Ponoka Hockey Club on Monday evening, proved very popular to young and old. The rink was crowded all evening, while the Empress Theatre was comfortably filled by dancers. The club feels grateful for the patronage given.

The lecture, given by Dr. McLaughlin in the Baptist Church on Tuesday evening, February 28th, proved a splendid success. The church was crowded. The doctor carried his audience with him from beginning to end. His realistic descriptions of the Northwest aroused in many of his hearers a desire to see that enormous stretch of wealth and beauty. From the financial side it was more than the most ardent dreamed of, bringing in sixty dollars, practically all of which goes to missionary work.

Grand Masquerade ball on Friday, March 17 (St. Patrick's Day) at the Empress Theatre. Prices will be given for best dressed lady and gentlemen. One cash prize given for most original dressed. Dance ticket, gentlemen \$1.00, spectators 25c.

There will be a dance in the Public Hall, Lochivar, on St. Patrick's night, March 17. Good music and a great time assured.

A meeting of the Battle River U.D. Chapter, O.E.S., will be held in the lodge room on Thursday evening, the 16th, at 8 p.m. Visiting members invited.

B. NARR, Sec. O.E.S.

The station depot has been closed on Sundays. There will be no tickets sold at the office, and little or no fire, the staff not appearing on the premises from Saturday evening till Monday morning. This is done with a view to economy, and of course it will mean some little reduction in the wage bill at the end of the month. However, this much—the employees will and can go to church regularly, and this should mean much for the uplift not only of themselves but of the whole community.

To the closing of Bismark post office another old trading place has gone. The rural mail is superseding the district offices. In many respects this is for the better, but of course from a social point the weekly visit to the post office was an event to be looked forward to. Of course there will be the usual trouble with the mails, and the courier can look for some harsh criticism, but 90 per cent. of the trouble will be in the mail being unsatisfactorily addressed. Bismark is now on Route 4, Ponoka, and the patrons should have their mail addressed accordingly.

Mr and Mrs Robt. Dick, of Victoria, have been enjoying visits lately from a number of their old Ponoka friends. Mr and Mrs L. J. Nelson and Mr and Mrs Carl Paulsen have rooms in the same house, and see each other often. Mr and Mrs Chris Albrecht and Mr and Mrs John Laycock were also callers. One afternoon there were no less than four Ponoka families gathered in Mr Niles' room, and everybody had an enjoyable visit. There has been an unusual lot of cloudy and cold weather, but a change for the better has now taken place. The "colony" is enjoying the best of health.

BREWSTER—On Thursday, Feb. 23, to Mr and Mrs Chancy Brewer, a son.

McLEOD—On Friday, February 24th, to Mr and Mrs A. A. McLeod, a son.

A grand masquerade ball will be held in the Empress Theatre on March 17th (St. Patrick's Day). The usual prizes will be given, and everybody will have a good time.

NOTICE TO DELAYAL USERS—There will be a DeLaval repair man at the Central Creameries on March 21 and 22 for the purpose of repairing cream separators. Now is the time for you to get yours done for the season.—A. A. McLeod.

To Let—Two Rooms to Let.—Apply, J. B. EVANS.

Farm wanted to rent in the Ponoka district. Send particulars to Melvin Johnston, Jenner, Alta. Reference from W. E. Ferguson, Phone 1055.

Select Laxative Medicine With Great Care

In debility and weakness, medicine should be mild and far reaching. Many pills and purgatives are too harsh, are drastic instead of curative. Excessive action is always followed by depression and slowing down. The Dr. Chase's Kidney-Liver Pills of Manitoba and Ontario, is a mild, healthy, and safe medicine. It restores the system to its normal condition, and gives the system strength. To keep your system in healthy good working order, regulate it with Dr. Chase's Kidney-Liver Pills, 25¢ all dealers or The Cataractores Co., Montreal.

Oh, Money! Money!

—BY—
ELEANOR H. PORTER

Printed by Special Arrangement with Thos. Allen, Toronto, Ont.

(Continued)

She gave him a merry glance. "Myself? Dear me, I guess I am. I'm going to Egypt, and China, and Japan—with you, of course, and look—oh, you never saw such a lot of books as I have! I'm going to—I'll spend hours on just my selfish little—oh, you'll be a good mother, but there are so many things that I've wanted to do, and it's just come over me this minute that now I can't do it. And you know how Hilton needs a new hospital! Her eyes grow dim and earnest again. "And I want to build a store and run it so the girls can live, and a factory, too, and decent houses for the workmen, and a big theatre where they can get their food at cost; and there's the playground for the children."

But Mr. Smith was laughing, and lifting both hands in mock defence. "Look here, I challenge you! I thought you were marrying me, but—oh, you're just a child!"

Miss Maggie laughed merrily. "Yes, I know, but I don't care. I stopped short. An odd expression came to her eyes. Suddenly she laughed again, and threw into his eyes a look so merry, so whimsical, so altogether challenging, that he demanded—

"Well, what is it now?" "Oh, it's so good, I have—half a mind to tell you."

"Of course you'll tell me. Where are you going?" he asked discontentedly.

Miss Maggie had left the sofa, and was standing, as if she had been flung, right into the door.

"I think—yes, I will tell you," she nodded, her cheeks pink, but not wanting to be over her, to tell it."

"Yes, away over there. To my room, and the call from the Boston lawyer, that I—I wouldn't tell you about."

"I should say I—"

"Well, they—they have something to do with money."

"I knew they did," triumphed the man. "Oh, why wouldn't you tell me—"

"—and let me help you some way."

"She shook her head nervously and backed nearer the door. He had half started from his seat."

"No, stay there. If you don't—I won't tell you."

He fell back, but with obvious reluctance.

"Well, as I said, it did have something to do with money, but not now, when you asked me if I was marrying you, or not. I should say I was in—"

They told me of money—gained," "gained?" That father's Cousin George in Alaska had died and left me—fifty thousand dollars."

"But my dear woman, why in heaven's name wouldn't you tell me that?"

"But my dear woman, why in heaven's name wouldn't you tell me that?"

"But my dear woman, why in heaven's name wouldn't you tell me that?"

(To be continued)

The War Toll Continues

Men Who Came Back Had Lives Greatly Shortened

Peace did not put an end to the war's toll of death. Besides the 60,000 Canadians who gave their lives while they were carrying on the struggle against the enemy, very many of their comrades who were spared to see their own country again had been injured in the deadly deeds of that warfare, which have since cut off. Scarcely a day passes without its toll of the death of some member of our Expeditionary Force.

How sad these facts are to all who are mindful of the heroes who have been called to fight, and the defence of the Empire to which they belong. Men in the prime of life, men of physical vigor, and of bright promise when the war began, are now dropping off because they gave themselves without stint to the duties of their country.

The war greatly shortened the days of many splendid men who survived its battles.

Besides the 60,000 Canadians who gave their lives while they were carrying on the struggle against the enemy, very many of their comrades who were spared to see their own country again had been injured in the deadly deeds of that warfare, which have since cut off. Scarcely a day passes without its toll of the death of some member of our Expeditionary Force.

How sad these facts are to all who are mindful of the heroes who have been called to fight, and the defence of the Empire to which they belong. Men in the prime of life, men of physical vigor, and of bright promise when the war began, are now dropping off because they gave themselves without stint to the duties of their country.

The war greatly shortened the days of many splendid men who survived its battles.

Peace did not put an end to the war's toll of death. Besides the 60,000 Canadians who gave their lives while they were carrying on the struggle against the enemy, very many of their comrades who were spared to see their own country again had been injured in the deadly deeds of that warfare, which have since cut off. Scarcely a day passes without its toll of the death of some member of our Expeditionary Force.

For Famine Relief

Saskatchewan Committee to Help Save Children from Famine

The Saskatchewan committee of the "Save the Children Fund" was appointed at a meeting held in the board of trade room, on Tuesday, the 10th inst., when the Hon. J. M. Macdonald, secretary of the Canadian Patriotic Fund, was chosen secretary. G. J. Johnson, honorary provincial secretary of the Boy Scouts, assistant secretary, and D. A. Y. Merck, manager of the Bank of Nova Scotia, were named trustees.

Present at the meeting were Captain John Macdonald and Dr. R. P. Macdonald, who were in the quarters of the fund, the purpose of which is rescue work among the children of the famine-stricken area of Russia.

When Does Bronchial Trouble Begin To Get Serious?

First it was a little throat tickle, then a cough which grew severe, then a cold, and finally a bronchial attack. To treat throat trouble right away is to prevent it from becoming a chronic cough. It helps the more sore spots, always irritating, eases the throat, breaks the breaking, clears out the phlegm and frees the nostrils from congestion.

From colds and coughs, and from bronchitis, frequently called "croup," thousands prove this every day. Everywhere, two months treatment \$1.00, medium size 50¢, small size 25¢.

New Sealplane is Fast

Hae Speed of Ninety-Five Miles an Hour

What is believed to be a new record in sealplane construction has been achieved at Hamble, Southampton.

A new sealplane, designed by the Fairly Aviation company, which have been working on the design, achieved a total weight of 7,250 pounds and left the water in 65 seconds.

The "sealplane" is a small, light, and powerful machine, and is said to be the fastest of its kind.

The sealplane is the actual weight, light; the practical, or, as it is technically termed, the "useful" load carried by commercial engineers would be 3,100 pounds.

A commercial sealplane of the same capacity could take up 20 passengers and send them on a voyage of 20 miles.

This new sealplane is 16 feet across the wings, and its speed is 95 miles per hour.

Sealplanes are much more difficult to get out of the water than machines, so that the time for doing was very good.

The experiment constitutes a fresh advance in the design of the machine, and is a big step towards the commercial sealplane for international travel.

GIN PILLS FOR THE KIDNEY

The Gin-Kaiser is Doing It Book He Is Composing

For the past year the Gin-Kaiser has been doing two things in his Dutch region—sawing wood and writing a book. Several chapters of the latter have been written, and a close friend of the former.

"What a book it is!" that friend declared. "It is a masterpiece of the night."

"It is ever published, it will be a death blow to monachism in Germany for 100 years."

The Gin-Kaiser said he would indicate that the Gin-Kaiser had learned little, if anything, by his defeat, and that he had changed his mind over the world since 1918.

Everything that went since in Germany he fore and during the war the Gin-Kaiser has been an excellent soldier in his memoirs, and he blames himself for nothing.

The Gin-Kaiser is said to be "replete with obsolete political views," and "erroneous conclusions, all tending to justify the former war lord's conduct."

Long Day Coming

Dr. George Darwin Says Earth is Slowing Down

The friction set up on the earth by the drag of the tides is acting as a kind of brake, and slowly but surely is causing the earth to turn more slowly on its axis.

So slowly, indeed, that the length of the day which is decided by one axial revolution of the earth is increasing by only about one two-hundredth part of a second in a century.

The effect of this slowing up means that the day will eventually be some 1.410 seconds long. And the rate of retarding on the moon by pulling it further away, when that epoch is reached the month will be the same length as the day.

It is believed that the earth will then revolve round the earth in the same time that the earth turns on its axis, and there will be no tides at all.

Lumber Prices Down

New Method for Making Hay

Alternate Current of Electricity Will Do Work of Sun

There is a method recently worked out in Switzerland for producing nearly grown grass without first drying it in the sun. All you do is to erect the grass out of the meadow, and to let an alternate current of electricity begin and complete the process.

When the method is made common, the farmer will be able to dry his hands in the sun, and to let an alternate current of electricity begin and complete the process.

When the method is made common, the farmer will be able to dry his hands in the sun, and to let an alternate current of electricity begin and complete the process.

How Weights Were Established

Canada the White Coal Country

Table Built Up from Actual Use of Grain

During the reign of Henry VII. were established standards of length and weight, with actual grains of wheat and barley as a basis.

Three barley corns were an inch, and from that was built up the rest of the system, the grain of the ear and laid out to end.

Under this same system 20 grains of wheat made a pennyweight, and from that as a basis they worked out the rest of the system.

One pennyweight made a pence, and from that as a basis they worked out the rest of the system.

One pence made a farthing, and from that as a basis they worked out the rest of the system.

One farthing made a halfpenny, and from that as a basis they worked out the rest of the system.

One halfpenny made a penny, and from that as a basis they worked out the rest of the system.

One penny made a shilling, and from that as a basis they worked out the rest of the system.

One shilling made a pound, and from that as a basis they worked out the rest of the system.

One pound made a hundredweight, and from that as a basis they worked out the rest of the system.

One hundredweight made a ton, and from that as a basis they worked out the rest of the system.

One ton made a hundredweight, and from that as a basis they worked out the rest of the system.

One hundredweight made a ton, and from that as a basis they worked out the rest of the system.

WORLD HAPPENINGS
BRIEFLY TOLD

Algeria may get a colony composed of eleven thousand former members of the Royal Irish Constabulary.

A \$3000 watch for a scientist has just been completed by R. Jones and Sons, of Trafalgar Square, London. It is said to be the most complex watch in the world.

About sixty writers went on strike at the King Edward Hotel, Toronto, because the management refused to be going into a dining room. The hotel discharge the waitresses.

Burglars broke into a house at Chesham, Eng., and took an overcoat and some belongings. Contents of a sewing basket on the table show the intruders had stopped to repair the coat before leaving.

A lighted, four thousand sheep taken to Ontario from Alberta by H. C. Harvey, and fed on elevator bread during the winter, has been sold in New York and Boston. Mr. Harvey says the experiment will be repeated next year.

Seventeen crates have been received for the James Gordon Bennett balloon cup race, which will start at Chesham, Eng., on Dec. 2. Three balloons have been ordered from France, Italy, Zurich, Holland, Italy and England, and two from Spain.

The Red Cross of the Turkish Red Crescent is again cutting a swath of death. One thousand Christian women and children are reported to have been ruthlessly massacred in the region of Smyrna by the Moslems there.

The police recovered about 5 cent. of cocaine, including potash and cocaine from the back seats and ash cans in the east end of the Chrysler. The cocaine is estimated to be worth half of Glasgow. The Chrysler is the explosive was removed from Sinn Egin arena, the holders being held by the authorities.

Rhubarb in Winter

Winning Gardener Growing the Plant on a Large Scale

Fresh rhubarb in winter time is an event that Winnipeg citizens are enjoying as the result of experiments conducted by a Mr. Healy, a market gardener. The rhubarb was planted in underground pits and Mr. Healy reports that the crop this year has been very successful and that he intends to sell his product not only in Winnipeg but in Regina and Saskatoon.

Dread of Asphyxia makes countless thousands of mothers and fathers still in torment from continual oppression. Dr. J. J. Kellogg's Asphyxia Remedy changes all this. It relieves, cures, and at once, while future attacks are averted, it has relieved one in a state of peace and happiness has been brought to the world. Inexpensive and sold almost everywhere.

Exports from Calgary

Emergency Tariff Has Greatly Reduced Exports

Exports from Calgary to the United States were approximately cut in half in 1921, when compared with the previous year's record of exports. The reason for this is the emergency tariff imposed by the United States government on the effects of the emergency tariff. Included in the year's exports to the United States were 12,500 cases of sheep, 1,615,000 pounds of wool, 1,000,000 pounds of wheat, 75,212 pounds of beef, 62,152 pounds of pork, 25,425 pounds of mutton, 2,165,921 pounds of meat and 2,252,921 pounds of butter.

Willie's Joke

"Pa, I know why the dog turns round 'n' round before he lies down."

"So he will sleep like a top."

Boston Transcript.

Wishing for sleep

is a poor way to get it

ALITTLE wisdom in the daytime

is a better assurance of rest than any amount of anxious wishing when

sleep is a long time coming.

What you do at noon often has

more influence on sleep than what you

want and hope for, at midnight.

Tea and coffee's drug element,

caffeine, whips up the nerves, and when

its use is continued there's usually a

penalty which no amount of mental

effort can avoid.

The part of wisdom, as so many

thousands have found, is to

turn away from nerve-stimulating

and adopt

rich, delicious Postum as

meatless drink.

Postum delights the

taste, but brings no dis-

turbance to nerves or digestion. Even

the little children can share in the en-

joyment of Postum at any meal.

It's better to anticipate warnings

to be driven by them.

It's better to encourage and pre-

serve sound nerves and complete

health than to listen to the clock ticks

at night and say, "I wish!"

You can get Postum wherever

good food or drink is sold and served.

An order today may be the beginning,

for you, of the great satisfaction and

comfort which so many others have

found in Postum.

Your grocer has both Instant Postum

in tin and made instantly in the cup by

the addition of boiling water. Postum Cereal

in packages of larger bulk, for those who prefer

to make the drink while the milk is being

prepared, is made by boiling for 20 minutes.

Postum for Health—"There's a Reason"

Made by Canadian Postum Cereal Co., Limited, Windsor, Ont.

ZAM-BUK

Nothing else known to

science performs the same

marvellous healing and dis-

pels disease from the tissues

as Zam-Buk does. This

pure herb-bain takes the

fire out of a wound or sore,

kills and repels germs

and grows fine new skin.

Zam-Buk is acknowledged

Rupert. The coal will be used for

banking and other purposes.

KEEP LITTLE ONES

WELL IN WINTER

Winter is a dangerous season for

the little ones. The days are so

short and the nights so long, the

children are so easily chilled, and

the mother is so anxious to keep

the little ones warm and healthy

that she is often tempted to

over-protect them. But the

best way to keep the little ones

well in winter is to keep them

healthy and strong. The

best way to do this is to

keep them clean and healthy

and to give them the best

of food and clothing. The

best way to do this is to

keep them clean and healthy

and to give them the best

of food and clothing. The
